OBJECTIVE

I am an independent, autodidact coder with excellent communication skills and background in education. My projects generally use MongoDB, Express, React, and NodeJS, but I love learning new tools and am continually trying out new things in my projects. If you point me to it, I'll learn it!

HIGHLIGHTED PROJECTS

LegisTracker – repo | deployment   **Full stack**
Employs the ProPublica and Google Civics API to enable users to follow the activities of legislators and legislative subjects they care about. User profiles enabled using MongoDB, Passport.js, and Bcrypt.

Tic Tac Toe 3D, Multiplayer – repo | deployment   **Full stack**
A three-dimensional (3x3x3) tic tac toe game to be played online. Three-dimensional front-end written in CSS3. Real-time competition powered by Socket.io.

Nadja's Books and Coffee – repo | deployment   **Front end**
A landing page written in vanilla JavaScript to experiment with CSS styling.

Coding Portfolio – repo | deployment   **Full stack**
For more projects, visit my Three.js-powered online coding portfolio.

SKILLS

Technologies I use regularly:

- JavaScript
- HTML5
- CSS3
- React
- Redux
- Express.js
- Axios
- Git
- Node.js
- NPM

Other familiar technologies:

- Mongoose
- MongoDB
- Three.js
- Passport.js
- JWT
- Bcrypt.js
- Nodemailer
- Heroku
- Python
- PostgreSQL

Other Skills:

- Written & Oral Communication
- Team & Individual work environments
- Qualitative Research
- Deadlines
- Teaching & Lesson Development

WORK EXPERIENCE

University of North Carolina at Chapel Hill – Chapel Hill, NC   2019 – 2021
